

# COVENANT METHODIST SENIOR SERVICES

## Mission and Values Statement

### Mission Affirmation

As a nonprofit, accredited, and faith-based organization, we offer services to improve and enhance the quality of life for older adults by supporting them to live with dignity in the least restrictive setting. Covenant Methodist Senior Services is an alliance of United Methodist Homes & Services and Covenant Retirement Communities, Inc. Our mission reflects the heritage of the alliance members.

### Our Values

Because we feel strongly that our values should never be assumed, we affirm the following:

Services and supports will reflect the philosophy that life is precious and has meaning in all stages.

Our daily interactions with residents, staff, families, volunteers and community members will affirm the value of each person, whom we will treat with dignity and respect.

Services and care will be person-centered and include resources and opportunities to foster physical, intellectual, social, spiritual, and financial wellness.

We recognize the families of those in our care as being members of our extended community. They contribute significantly to the best possible outcomes for each individual.

We manage our human and material resources ethically, with creativity and vision, employing best practices and always mindful of changing needs and environments in our capacity to serve.

We provide services in a nonsectarian, faith-based environment where spiritual wellbeing is placed above denomination or religious beliefs.

While ensuring the safety of each person in our care we are mindful of common freedoms, privileges, constitutional protections, and civil rights.

Cultural diversity should be honored and supported.
